# PT. ASIANFAST MARINE INDUSTRIES

## QUALITY MANAGEMENT SYSTEM (ISO 9001: 2015)

### QUALITY POLICY

PT. Asianfast Marine Industries (AMI) aspires to meet or exceed our Customer requirements; needs and expectation of relevant interested parties by providing the best value-for-money solutions in the most timely manner, meeting or exceeding industry & applicable statutory and regulatory requirements. We shall achieve this whilst providing best protection to our people, our assets, our customer's assets and the environment.

AMI is committed to enhancing Customer Satisfaction in delivering the best service and value to the Customer by innovating proven methods and skilled manpower in "Ship Building and Ship Repair" and improving those methods and standards continually.

Customer feedback is embraced under the theme of "continual improvement" of the Quality Management System and allows us to identify the standards that we aspire to and document the procedures necessary to maintaining / exceeding those standards.

All personnel are fully engaged in the process in order to understand their roles' in the delivery of products and services.

We promote mutually beneficial relationships with all suppliers and regulators to ensure that the best service is delivered to our Customers to the appropriate standard and price.

AMI has strategic partnerships with engine manufacturers, experienced boat building companies so-as-to fulfill our Customer requests and maintain the highest quality of workmanship across the range of customers we serve.

This policy is subject to annual review to ensure relevance to changing applicable statutory and regulatory requirements; needs and expectations of relevant interested parties; and customer requirements.
